

MIRKA Abranet Sanding Products

NEW

Abranet® is a revolutionary new product for dust-free sanding. The patented abrasive has amazing properties, which will fundamentally change your attitude to sanding. Abranet® is an innovative abrasive that reduces dust from the sanding process entering the atmosphere to practically nothing. It has been developed for surface finishing, while minimizing spreading of hazardous dust.

- The Abranet sanding system is the most revolutionary finishing product introduced to the marine industry.
- Abranet discs outlast traditional abrasives for greater efficiency.
- Immediate dust removal allows for better sanding.
- Extended product life requires less use of materials.
- Abranet mesh discs use a hook and loop attachment with vacuum backup pads.
- Can be used for coating removal, surface prep and finish sanding.
- Dust-controlled sanding improves working conditions with less environmental impact.

5" Mesh Grip 50 SHEETS PER PACK

ORDER NO.	GRADE	PRICE
MIR 9A232080	P80	\$73.67
MIR 9A232100	P100	\$64.65
MIR 9A232120	P120	\$64.65
MIR 9A232150	P150	\$64.65
MIR 9A232180	P180	\$64.65

MIRKA Finishing Sanders

NEW

High Performance Air Sanders, running at 12,000 RPM, yet lighter and quieter than other sanders. Very comfortable to use, with excellent performance! This portable, dust-controlled sanding solution delivers superior operator comfort and versatility with the most powerful and effective self-generated vacuum systems available.

Available in 5" and 6" pad models, Mirka's vacuum sander assemblies produce a high velocity vacuum that removes the dust from the work area. Due to the fantastic extraction ability, sanding is virtually dust-free.

- Constructed of lightweight, precision molded composites for strength and durability, while reducing operator fatigue.
- 12,000 rpm performance for maximum productivity.

ORDER NO.	DESCRIPTION	PRICE
MIR 5SGV	5" Orbital Self Generating Vacuum Kit	\$389.63
MIR 6SGV	6" Orbital Self Generating Vacuum Kit	\$389.63
MIR 9320	Replacement Dust Bag (Pk-10)	\$24.92

MIRKA Interface Pads & Pad Protectors

NEW

Mirka's interface pads are used in combination with hook and loop sanding discs for sanding rounded surfaces and contours. Use of the interface pad will also produce a softer result. The interface pad is placed between the backup pad and the abrasive disc.

Interface pads are available in 3/8", 1/2" and 3/4" thickness.

Pad protectors are used between the sander and the abrasive disc, reducing wear of the backup pad's grip hooks.
