

**For the Life of Your Boat
Rx for Dry Rot™ "Git"-Rot®
Protected by U.S. Patent**

The original proven cure for dry rot. Penetrating adhesive-flexible sealant – restores strength of rotted wood. "Git"-Rot pours into the finest openings, penetrates deep and completely saturates rotted wood, arresting the progress of dry rot by encapsulating the fibers. It subsequently cures into a tough, resilient adhesive that bonds wood members together with a mass stronger than the original wood. Ideal for wood encapsulated by fiberglass such as transoms, stringers, keels, etc.

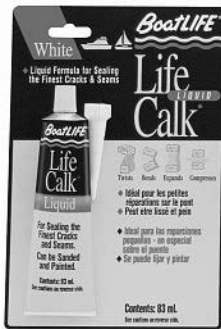

ORDER NO.	SIZE	CTN.	PRICE
BTL 1063	4 oz	12	\$19.01
BTL 1064	Pint	12	\$45.24
BTL 1065	Quart	12	\$76.30

Liquid Life-Calk®

Liquid Life-Calk is the only liquid type sealant that does not shrink when cured. It flows into the smallest cracks and seams and stays. It cures to a firm bond with the same lifetime adhesion as regular LIFE-CALK. The seal is durable, flexible and stops seepage for good.

3M

Marine Grade Mildew Resistant Silicone

A mildew resistant non-sagging, moisture-curing silicone rubber sealant. Remains flexible with excellent resistance to the marine environment. Adheres to bare and painted metal, fiberglass, glass, non-oily woods and many plastics and abraded rubbers. Ideal for head and galley sealing applications. Also excellent gasket adhesive and formed-in-place gasket material.
